JAS. MUNSELL, JR., Manager,

415 Montgomery Street, **San Francisco, Cal.**

ENERGETIC AGENT WANTED FOR SACRAMENTO.

THE NEW POLICY OF THE

Mutual Benefit

Life Insurance Company

IS UNEQUALED IN ITS ADVANTAGES TO THE

POLICY HOLDER,

WHICH ARE NOT COMBINED IN THE POLICIES OF ANY OTHER COMPANY.

Large Annual Dividends, which may be used in Cash Reduction of Premiums, or applied to the purchase of paid-up participating Insurance payable with the Policy.

Equitable Surrender Values which are indorsed on the Policy, so that the insured can stop paying Premiums without loss by forfeiture.

1. **A Liberal Cash Surrender Value.**
2. **Extended Insurance** in the full amount of the Policy for as long a period as the value of the Policy will pay for at low term rates.
3. **A Paid-up Policy** for a reduced amount payable whenever death occurs.

Cash Loans are made up to the **Cash Surrender Value** when a satisfactory assignment of the Policy is made as collateral security. The Insured may thus prevent the lapse of the Policy if he happens to be short of funds; or he may secure a cash loan to meet any sudden emergency.

If the insured forgets to pay a Premium on the day it is due, his insurance is continued in force by the Company **without action on his part.** If he is well, he has three years' time in which to revive the Policy by payment of arrears of Premiums with interest; while if he is sick, or unable to pay the Premium, he is protected by his Extended Insurance.

See example of a lapsed Policy extended and paid in full in Alameda on 7th page of this advertisement.

Policies are Incontestable after the Second Year.

See Illustration, Opposite Page.

*Two Years' Dividends.

It should be borne in mind that the Mutual Benefit's policies are all STRICTLY NON-FORFEITABLE, both as to the policies themselves, and as to dividends, which, in the Mutual Benefit, are always declared ANNUALLY so long as the policy continues in force.

Long deferred dividends conduce to extravagant management, and impose great loss on the average membership.

Deferred Dividends are a great help to companies which cannot pay good average dividends, and seek to conceal the fact by paying no dividends for many years and CONFISCATING the dividends of all who drop out of the company in the meantime.

Policies Absolutely Non-Forfeitable After Second Year.

Example of Lapsed Policies Paid in Full.

Policy No. 17,235, on the life of Dr. Edward P. Gaylord, of Alameda. Cal., was issued in 1862, at age 28, for **$2,250,** with an annual premium of $50.40. He paid 27 premiums, amounting to $1,360.80, which, less dividends, $556.61, and premium loan of $123.79 (canceled), made a net payment or cost of $680.40, exclusive of interest. He did not pay the premium due in May, 1889; but instead of taking a paid-up policy for $1,071, he allowed his insurance to be **extended** for **12 years** and **87 days,** making in all 39 years and 87 days' insurance at an average yearly cost of **$7.71 per thousand.**

Dr. Gaylord died in September, 1895, more than six years after the lapse of the policy, which, however, was promptly paid in full by the Company.
